Reduce Environmental Footprint From Transportation
Per Olof Arnás

All of these affect the fuel consumption. Aero dynamics, driver, friction, etc.

Vehicle
Reduce energy use per km

Execution
Meet transportation demand more efficiently

Infra structure
Increase mobility

Policy makers

Fuel type
Raw material
Cost
Market

No silver bullets
Several fuels needed to replace oil
Biomass

Energy sources
Sun
Wind
Water

No silver bullets
Several fuels needed to replace oil
Biomass

And all of these are needed
